

Discover What Is Missing

Many churches are busy. They hold services, plan events, teach classes, and care for people. Yet something can still feel missing. Attendance may drop, faith may grow weak, and believers may struggle to live for Jesus beyond Sunday. The problem is not always a lack of effort. The missing piece may be the call to make disciples.

The Hole in the Church invites pastors, ministry leaders, and everyday Christians to look at this need. Jesus did not tell His followers only to gather crowds or build programs. He commanded them to go and make disciples. A disciple learns from Jesus, obeys His Word, grows in faith, and helps another person follow Him.

When disciple making is missing, people may attend church without learning how to pray, study the Bible, share their faith, or guide others. They may know facts about God but still feel unsure about walking with Him each day. This creates a hole that programs alone cannot fill.

This book helps readers see that hole and understand why it matters. It offers a biblical and practical path toward restoring disciple making to the heart of the church. The goal is not to criticize churches or hardworking leaders. The goal is to help the church become stronger, healthier, and more faithful to the mission Jesus gave.

What might change if every believer knew how to follow Jesus and help someone else do the same? Families could grow stronger. New believers could receive guidance. Leaders could multiply. Churches could reach beyond their walls, and faith could pass from one generation to the next.

The Hole in the Church asks a vital question: Have we been doing good things while overlooking the main thing? Discover what is missing—and learn how ordinary believers can help fill the hole through life-changing disciple making.
